McMahon exercises control over our affairs, and his interests may conflict with the holders of our Class A common stock; a substantial number of shares are eligible for sale by the McMahons and the sale, or the perception of possible sales, of those shares could lower our stock price; and the relatively small public "float" of our Class A common stock. In addition, our dividend is dependent on a number of factors, including, among other things, our liquidity and historical and projected cash flow, strategic plan (including alternative uses of capital), our financial results and condition, contractual and legal restrictions on the payment of dividends (including under our revolving credit facility), general economic and competitive conditions and such other factors as our Board of Directors may consider relevant.
